**SOLLUM TECHNOLOGIES WINS
SAPPHIRE AWARD
FOR HORTICULTURAL LIGHTING**

Montréal, Québec, Canada, August 26, 2021 – [Sollum Technologies](#) is pleased to announce that its smart LED lighting system has been awarded the prestigious 2021 Sapphire Award in the horticultural lighting category by [LEDs Magazine](#). The Sapphire Awards winners were revealed at the end of day one of the Strategies in Light conference, held on August 24-25, 2021.

"Receiving the Sapphire Award for horticultural lighting is a strong signal of the relevance of Sollum's technology and a tremendous honour for us," says Sollum Technologies President and CEO [Louis Brun](#). "This award recognizes Sollum's vision for the future of horticultural lighting and the hard work put in over the years."

The Sapphire Awards honour real innovation and exciting advances in the LED and SSL industry. Award winners and their technologies will be profiled in the September 2021 issue of LEDs Magazine. More information on the 2021 Sapphire Awards winners can be accessed [here](#).

About Sollum Technologies

Inspired by nature, Sollum Technologies was founded in 2015 to offer greenhouse producers the only smart LED lighting solution which dynamically recreates and modulates the full spectrum of the Sun's natural light. The company is based in Montréal (Québec, Canada), where its design, development and manufacturing

activities are concentrated. It works closely with its clients to create recipes adapted to the growth cycle of each product, regardless of its native climate in the world and the location of the greenhouse. Sollum's lighting solutions thereby provide unparalleled value in terms of energy savings, productivity, and superior produce quality through a flexible, adaptive, and easy-to-use application, with great respect for the environment. It was awarded the [Solar Impulse Foundation](#) Efficient Solution Label granted to only 1000 technologies in the world. For more information, visit sollum.tech.
